Kind Attn.: Mr. Senthil Kumar

Subject: CE marking assistance for Valve Regulated Lead Acid Battery Models IP series & FTA series.

We, as provided by you, have reviewed a sample of the Technical Construction File. The file adequately covers the requirements of the following Harmonized Standards under provisions of 2004/108/EC - Electromagnetic compatibility Directive & 2006/66/EC - Batteries Directive,

- EN 61000-4-2:1995 (Incorporating Amendments A1: 1998 and A2: 2001) - Electromagnetic compatibility (EMC) — Part 4-2: Testing and measurement techniques — Electrostatic discharge immunity test

The TCF also contains the test report as per the standards for Stationary lead-acid batteries listed below –

- EN 60896-21:2004 - Edition 1, Stationary lead-acid batteries - Part 21: Valve regulated types - Methods of test
- EN 60896-22:2004 - Edition 1- Stationary lead-acid batteries — Part 22: Valve regulated types — Requirements

Description of the Electrical Equipment: Valve Regulated Lead Acid Battery.

Model/ Type ref.: Models IP Series & FTA Series.

Also note that, country specific requirements for RoHS, WEEE Directives or other recycling requirements should be taken care by the manufacturer. These requirements are not evaluated under the scope of this project.

You may make the EC Declaration of Conformity as per the enclosed format.

Thank you,

Sincerely,

*Prabhu Mani*
